Irrigation & Maintenance

RE: RFP For Tree Work And Property Improvements

- Perform all work covered in RFP #004-21 Document. An exception for the School Property section of tree trimming. This will be a separate line item as it is not approved per document at time of submittal.
- Contract will be with Lucan Landscaping with Timber Valley Tree Service as a subcontractor.
- Lucan Landscaping will provide the utility locates as they will do the required stump removal, irrigation repairs and tree planting.
- There is a block and paver seating area next to two of the stump removal areas. The stumps will be ground up to 6 inches of the base as not to upset the footing of the structure or cause damage.
- There is a natural gas meter in the stump grinding area. If the locates denotes possible damage to the underground line and requires utility stand by this will be discussed with LRFDP prior and may be an additional charge.
- Note: Lane Forest Products will provide the Blower Service for the bark application. Our current proposal price is 3.5 units For \$960.00 including clean up. If LFP has a price increase between this proposal and work start the increase will be verified by LRFDP and billed in accordance. Likely this will be less than a 5% increase if any.
- #5 Item on RFP (Tree trimming along school perimeter fence line with approval additional \$510.00.
- Remaining total of work outlined in RFP # 004-21 \$7300.00
