

Lane Fire Authority  
RFP 004-21  
Tree Trimming  
Stump Grinding  
New Tree Replacement  
Bark Mulch Replacement  
11- 2-2021

**RFP Due Tuesday November 11-16-2021 at 5:00pm**

Work Address:

3939 River Road

Eugene, Or. 97404

1. Remove (3) trees as marked with orange tape and remove all brush and tree trunks.
2. Grind all stumps to subgrade of 18 inches and remove all chips and any feeder roots from bed. Appropriate fill to be added to beds to facilitate new tree growth and to verify underground pipes have not been damaged during stump removal. If damage has occurred repair all pipes as needed and verify they are in working order prior to tree planting.
3. Replace removed trees with (3) flowering dog wood trees and verify they will receive water from underground sprinklers.
4. Trim all other trees on property around all lighting poles and parking area, evergreen tree in south parking lot can be trimmed above bed height to allow bed maintenance. Remove all brush and limbs and blow parking lot area off when job is completed.
5. Trim large maple tree limbs hanging over parking lot from adjacent school property. Lane Fire Authority will obtain permission for tree trimming to occur.
6. Add 2 inches of regular bark mulch to all existing beds
7. Trees along River Road west of the sidewalk (street side) are City of Eugene's responsibility, do not trim them.
8. Damage to parking lot surfaces, curbs or light poles will be the responsibility of the contractor to repair.
