

Lane Fire Authority  
RFP 0003-21  
For Entrance and Interior lock sets  
10-2021

**RFP bid due by Thursday 10-14-2021 5:00pm**

Lane Fire Authority is in the process of enhancing security at its stations; Monitoring door locks and the ability to change combination ~~via a network~~. This saves on hours to re-program and drive to multiple locations should a district wide combination change need to occur. We have completed several of our stations with partial network capabilities and are striving for consistent door lock systems district wide.

Locations where work will be completed:

2600 River Road (117)

Eugene, Or. 97404

3939 River Road (116)

Eugene, Or. 97404

**2600 River Road:**

- Installation of (1) Trilogy ~~WiFi~~ combination capable with key card entrance lock on North man door.
- ~~Installation of (1) WiFi door lock network hub.~~

**3939 River Road**

- ~~Installation of (1) Lock hub/ router that will interface with Trilogy WiFi lock sets~~
- Installation of (3 exterior) Trilogy ~~WiFi~~ combination key card capable locks.
- Installation of (3) interior Trilogy ~~WiFi~~ combination key card capable locks.
- Installation of the (3) used older trilogy locks to be installed on the upstairs dorm rooms when they are removed from exterior doors.

**Terms and conditions:**

- All contractors shall be licensed and insured
- Masks worn while inside on premises
- All material and trash shall be removed by the contractors
- No apparatus doors shall be blocked
- Bid shall be received by email at: <mailto:barrynelson@lanefire.org>
- Timelines on project duration shall be provided to Lane Fire Authority
- Budget constraints may push this project into 2022

Lane Fire Authority  
RFP 0003-21  
For Entrance and Interior lock sets  
10-2021

RFP Results

 A-1 Lock & Key	Declined
 Lane Lock & Key	Declined
 Keyhole Locksmith	\$8,000.00

My recommendation is to go with Keyhole Locksmith.

Respectfully,  
Captain Nelson
